

Steel Pipe Electric Power Tower 110KV Lattice Tower

Mao Tong is a leading China Steel Pipe Electric Power Tower 110KV Lattice Tower manufacturers, suppliers and exporter. Besides our existing molded products, Mao Tong also can produce products according to the drawings or samples from our customers.

Product Description

High quality Steel Pipe Electric Power Tower 110KV Lattice Tower is offered by China manufacturers Mao Tong. Qingdao Maotong Electric Power Equipment Co.,Ltd, is a manufacturer specialized in the production, installation and sales of various iron towers and steel structures, the company specializes in producing all kinds of steel structure products such as power tower, substation frame, communication tower, stainless steel process tower, lightning protection tower, radio and television tower, watch tower, monitoring tower, lighthouse, torch tower, chimney protection tower, bionic tree tower, single pipe tower, transportation equipment, foundation embedded iron parts, steel pipe electric power tower 110kv lattice tower, etc

Steel Pipe Electric Power Tower 110KV Lattice Tower: A lattice tower composed of steel tubes for the main components and steel tubes or section steels for the other components. A support structure for overhead transmission lines to support conductors and lightning arresters. So that the wire to the ground, ground objects to meet the distance limit requirements, and can withstand the wire, lightning conductor and its own load and external load.

The steel tube tower structure has been well developed in the lines of different voltage levels because of its large section stiffness, good section stress characteristics, simple force, beautiful appearance and other outstanding advantages. Especially in the long span structure, urban power grid tower structure more applications.
